

IN RECESSION – OVERCOMING THE CRISIS NEEDS ACTIONS
COMPANIES THAT STAND STILL MAY NOT SURVIVE

THE QUESTION IS:

ARE YOU **WILLING** TO TAKE THE RISK?

"Many companies fail to see opportunities hidden in downturns.

To take advantage of opportunities, you first need to do a thorough but rapid assessment of your own vulnerabilities and then move decisively to minimize them.

This will position you to seize future sources of competitive advantage."

– Harvard Business Review 2009
